

IO BEATS — OFFICIAL OWNERSHIP TRANSFER STATEMENT

(PAD Pro Version — With Branding & Verification Link)

1. Project Information

Project Name: IO Beats (IOB)

Token Standard: ERC-20

Network: Ethereum Mainnet

Smart Contract Address: 0xc2aF820610e055264F928388B85CDEDe6A21d710

Ownership Transfer Date: 05 December 2025

Transaction Status: Completed & Verified On-Chain

2. Summary of Governance Upgrade

The IO Beats team confirms that ownership of the IOB smart contract has been securely transferred to a Safe multisig (4-of-7) to ensure maximum decentralization, institutional security, and compliance with Tier-1/Tier-2 exchange standards.

This update aligns IO Beats with industry governance practices used by top Web3 protocols.

3. New Contract Owner — Safe Multisig (4/7)

Multisig Owner Address:

0xA2952C5F625e59E21012FB92A8D8269Fdb324554

Configuration:

- ✓ 7 total signers
- ✓ 4 signatures required for approval
- ✓ Secure, decentralized governance
- ✓ Eliminates single-point-of-failure

This structure protects the ecosystem, investors, and future exchange integrations.

Executed Function:

transferOwnership(newOwner)

New Owner Applied:

0xA2952C5F625e59E21012FB92A8D8269Fdb324554

Result:

SUCCESS — Ownership permanently transferred to Safe multisig 4/7.

This transaction is immutable and publicly verifiable.

5. Security Rationale

Moving ownership to a 4/7 Safe Multisig provides:

- Institutional-grade protection
- Impossible unilateral action by a single signer
- Stronger decentralization score for audits
- Higher trust level for exchanges (IEO, listings)
- Professional governance model aligned with Aave, Uniswap, LayerZero, etc.

This step is considered mandatory for serious Web3 projects entering presale/IEO phases.

6. No Impact on Token Holders

This ownership transfer does not affect:

- Token balances
- Supply
- Trading mechanics
- Liquidity
- Utility
- Circulating supply

Only administrative governance has been upgraded.
